EXCEEDING EXPECTATIONS

May / June 2006

Offering a pioneering blend of low voltage operation and all-internal installation, the Bio-Fighter® Lightstick marks a new breed of germicidal UV system. All new 24V power supply mounts inside air handler control panel and connects remotely to a water-resistant UV lamp for a fast, simple installation. Multiple installation options. Install remote lamp via lamp bracket or directly into an A-coil delta plate.

FEATURED PRODUCT \$149.00

Bio-Fighter® Lightstick

Enjoy The Many Possible Benefits:

- Breathing purified air reduces your exposure to disease producing organisms.
- Children, the elderly and those with weakened immune systems benefit the most.
- Your air handling system can operate with more efficiency as the coils, drain pan and duct work stay cleaner longer.
- You enjoy peace of mind, knowing you have provided a healthier environment for your family.

Molds. Bacteria. Yeasts. Viruses.

Features

- 24 volt electronic ballast
- 12", 14", or 16" germicidal UV lamp
- Non-Ozone lamps (Ozone lamps optional)
- Full internal mounting and operation
- 6ft lamp cord
- 3ft power cord
- Water-resistant lamp connector
- Plastic cord shield
- AHU viewport
- 5-yr power supply warranty
